Abstract:

La strategia di internazionalizzazione della SSML VITTORIA è rivolta a migliorare la qualità e quantità dei progetti di mobilità nella loro accezione più ampia e ha come obiettivo quello di rispondere alle esigenze del territorio e di formare dei cittadini internazionali in grado di gestire la complessità della società moderna, attraverso la promozione della mobilità di discenti e di staff (entrata e uscita), modernizzazione delle competenze del personale, ampliamento delle conoscenze delle politiche educative dei paesi europei, sviluppo del livello di inclusione sociale ed educativo e di non discriminazione, incremento della consapevolezza interculturale e rafforzamento dello spirito di iniziativa degli studenti in mobilità, interconnessioni tra formazione professionale e mercato del lavoro. Tali obiettivi saranno raggiunti mediante potenziamento e stipula di nuove partnership e accordi con enti e aziende, costante coordinamento da parte dell'ufficio Erasmus e degli uffici di coordinamento dell'Istituto, monitoraggio offerta residenze universitarie, sostegno nella stesura dei Learning o Teacher Agreement e invio tempestivo del Transcript of Records. Le attività progettate si basano principalmente sulle mobilità Studio, Traineeship, docenti e staff in Paesi UE o extra-UE. Altra attività internazionale già consolidata da anni è il rilascio di un Doppio Diploma. Si stima che il numero dei soggetti partecipanti al programma sia annualmente intorno a 30 persone (incoming e outgoing) considerando gli studenti, i docenti e lo staff, su una rete di una quindicina di partnership internazionali. I risultati attesi sono i seguenti: riconoscimento ECTS, sviluppo della dimensione internazionale, interculturale e di modernizzazione, nuovi dialoghi costruttivi con partner internazionali, contatto diretto con la realtà di altri paesi e con sistemi di valori diversi da quelli di provenienza, strategia di inclusione, sviluppo di tecnologie e mobilità virtuale, e sicurezza sanitaria.

Evaluation Summary Report

Evaluation Result

Total score: 100.00 (Threshold: 76)

Form information

Criterion 1 - Relevance of the Erasmus Policy Statement

- The Erasmus Policy Statement is clear, consistent and relevant;
- The Erasmus Policy Statement reflects on the relevance of the Erasmus+ Programme within the applicant's institutional internationalisation and modernisation strategy
- The Erasmus Policy Statement reflects on the planned implementation of the Programme actions and how these will contribute to achieving the objectives of the applicant's institutional strategy.
- The targets and indicators are described when explaining the envisaged impact of the participation in the Programme.

Expert assessment:

The applicant presents a clear Erasmus Policy Statement (EPS) in line with the institution's profile. The EPS is consistent with the mobility activities that the institution intends to undertake. It also includes targets and indicators to explain the envisaged impact of the participation in mobility activities.

The scope of the EPS is not only limited to mobility activities. It is recommended for the applicant to read the Charter guidelines to learn even more about the opportunities offered by the Programme in case they decide to enlarge their participation to other Programme activities.

The institution should contact their NA if they decide to modify their EPS.

Criterion 2 - Adherence to the ECHE principles and practical implementation in the Higher Education Institution

Criterion 2.1 – Recognition and Transparency:

The application reflects on adequate procedures for full automatic recognition of all credits gained for learning outcomes achieved during a mobility period abroad/ a blended mobility. The application should reflect on the necessary measures to achieve:

- a correct use of learning agreements, including online learning agreements;
- the inclusion of appropriate information on learning outcomes, volume of workload (credits) and grades in the transcripts of records;
- achieving full automatic recognition of credits and the recognition of grades (if appropriate) after outgoing mobility;

- a clear and easy path for students to appeal in case full automatic recognition is not achieved.
- The provision of full information on the grading system in the inter-institutional agreements;
- The provision of grade distribution tables, together with transcripts of records (whenever grades are used)
- The transparency of the course catalogue (following the rules of the ECTS Users' Guide, explaining how the information will be provided in a timely manner and providing a link to the course-catalogue.
- The application reflects on adequate procedures for staff recognition when it comes to participation in mobility and in European and international cooperation projects.

Expert assessment:

The institution commits to implement full automatic recognition and describes some of the steps to take.

However, they should improve their practices by carefully reading the Council Recommendation for full automatic recognition to design a methodology to implement it at institutional level.

Further to the measures to implement full automatic recognition, the institution should ensure full transparency towards students, which should also include a clear procedure for appeal.

Criterion 2.2 – Adequate procedures for adherence to the principles:

The application reflects how the Higher Education Institution will adhere to the ECHE principles ([cf. the ECHE Annotated guidelines](#)) and details the procedures in place to participate in the Programme activities.

Expert assessment:

The application demonstrates that the institution will adhere in a satisfactory way to the ECHE principles, and details how they will favour mobility of staff.

Criterion 2.3 – Commitment to the new principles:

The applicant institution demonstrates a commitment to further develop the implementation of the new ECHE principles, notably:

- Ensuring full and equitable access to participants from all backgrounds, paying particular attention to those with fewer opportunities;
- Having in place a well-explained methodology for allocating ECTS credits. If this is not the case, it must be explained why the applicant is not yet using ECTS credits and how they plan to implement it in the future;
- Putting measures in place to implement the European Student Card Initiative;
- Promoting the programme's Erasmus+ mobile App to students;
- Implementing and promoting environmentally friendly practices in the context of the Erasmus+ Programme;
- Promoting civic engagement and active citizenship amongst outgoing and incoming students before, after and during mobility.

Expert assessment:

The institution commits to implement full and equitable access to participants from all backgrounds. However, it does not describe a full range of actions to ensure the inclusion of groups with fewer opportunities for participation in mobility programmes.

The institution should also consider the possibility of creating training activities for staff and student to promote full and equitable access to participants from all backgrounds.

The applicant shows commitment to implement the European Student Card Initiative and promote the use of Erasmus+ Mobile App. The applicant should improve their knowledge about these two initiatives and provide a timeframe to implement them in the institution. They should also ensure that the institutional information is present and up-to-date in the E+ mobile App.

The institution demonstrates that they intend to promote and implement environmentally friendly practices. The examples given are appropriate and in line with the new principles of the ECHE. The application describes adequate measures to encourage the civic engagement of incoming and outgoing students.

The applicant declares that they aim at promoting civic engagement and active citizenship amongst the participants in mobility activities at all stages. The institution should make sure that they organise activities that focus on turning mobile participants into civically engaged citizens, on developing their skills beyond the formal education setting, and on encouraging them to volunteer and take active part in the local society.

Criterion 3 - Quality of the management structure

- The applicant institution shows qualitative levels of general management, including internal management structure, human resources and mobility/project organisation from preparation through to recognition, dissemination and evaluation;
- The institution has the capacity to implement the activities in place and ensure their sustainability
- The applicant institution demonstrates its commitment to quality management, with emphasis on human resources and sustainable structures of cooperation and communication;

Expert assessment:

The institution demonstrates that it has the capacity to implement the planned activities and to ensure their sustainability. There is therefore a commitment to improve the current cooperation structures. The measures for guaranteeing the visibility of Erasmus+ opportunities are satisfactory as well as those to promote the Charter principles in the institution.

Decision

Status: **Accepted**

Summary of the proposal's key strengths and key weaknesses

The institution can be accepted for renewal of the Erasmus Charter for the period 2021-2027.

The institution should carefully read the Erasmus Charter Guidelines to ensure a sustainable and qualitative participation to the Programme.
